## Success by Design, Impact at Scale: Co-designing the Future of Work

For almost 70 years, Education Development Center (EDC) has forged partnerships between industry and education that:

- Modernize PreK-Adult learning
- Propel workforce readiness and success
- Transform on-the-job training
- Improve worker wellness and productivity

Our work builds key knowledge, competencies, and skills across the lifespan. With our clients, we prepare the current and future workforce to power emerging and traditional industries.

### Selected Clients

**Amgen:**

### Our work is results-driven and impactful:

Each year, our work reaches 3M+ people including employers, employees, career seekers, students, educators, policymakers, and the public

We use continuous improvement and technology to design standards-based curricula and trainings that exceed client expectations

We offer rigorous evaluation to make sure all client goals are met, document outcomes, and widely share data-rich success stories to spur change

At every age and stage, we help youth and adults gain the competencies, knowledge, and job skills employers need

#### PreK-Grade 5

We plant the seeds of workforce success by helping teachers and families build children's early reading, writing, and STEM skills and knowledge

#### Grades 6-8

We promote kids' career exploration and help teachers give students a strong foundation in workforce competencies, such as data literacy/fluency and AI literacy

#### Grades 9-12

We position youth for workforce success by cultivating key employability skills and improving work-based learning, career-tech education, and apprenticeships

#### Postsecondary

We develop industry-informed career pathways and occupational profiles that prepare workers to pursue and secure jobs in growing fields

#### Adult

We transform career learning to ensure basic education, training, and certificate systems keep pace with emerging occupations and employer needs education, and apprenticeships

## Ask Us About:

### ✓ Our National and Regional Forums

We lead convenings that engage diverse interest-holders across industry, education, and local, state, and federal government in addressing urgent challenges and emerging opportunities in workforce development.

### ✓ Our CSR Consultation

We design meaningful CSR programs that connect employers with schools and the community, creating work-based learning opportunities that transform young people's workforce readiness and success.

### ✓ Our Training and Course Design

We offer a team of highly skilled technology and instructional design experts who specialize in designing innovative and effective on-the-job and workforce trainings that meet the needs of diverse industries.
